

HYDROCARBON-FREE – VOC 0%

Eco-Friendly
Industrial Cleaner

ECO CLEANER

500ml

REX EcoCleaner is a low-foaming, water-based industrial cleaner that is **phosphate- and solvent-free**. The product utilizes natural cleaning agents and renewable raw materials. Its pleasant scent and powerful dirt-dissolving capability ensure excellent cleaning results without damaging surfaces – preserving the original appearance.

SAFE & ECO-FRIENDLY

Phosphate- and solvent-free → environmentally responsible
Based on renewable raw materials → reduced carbon footprint
Pleasant scent → improved working environment

POWERFUL CLEANING

Removes rubber marks, bitumen, wax residues, carbon deposits, soot, and paste
Gentle on surfaces → maintains original finish
Suitable for manual and mechanical cleaning

APPLICATIONS

Machines, engines, gearboxes, valves
Steel, aluminum, and non-ferrous metal surfaces
Food industry equipment (rinse with potable water)

REX ECOCLEANER 500ML

EAN: 6430064917558

PRODUCT NO: REXCHEM491755

- **Hydrocarbon-free – VOC 0%**
- **Water-based** and extremely safe to use
- **For very heavy dirt** such as tar, resin, rubber and grease stains
- **Does not damage materials;** on the contrary, it refreshes surfaces such as plastics
- **Food-grade approved (NSF)**
- For work, home, outdoors and indoors – **one cleaner for everything**

Product range for professional use. Discover more on our website!

PREVENTS RE-FREEZING

Instant De-Icer & Protective Lubricant

LOCKFREE

48/65 ml

REX LockFree quickly melts frozen locks and leaves a lubricating protective film that **reduces the risk of re-freezing**. Improves lock functionality and extends service life.

SAFE TO USE

Prevents re-freezing → protective film
Improves lock performance → reduces wear
Easy to use → fast action

HIGH PERFORMANCE

Rapidly melts frozen locks
Lubricates and protects against corrosion
Extends lock lifespan

APPLICATIONS

Vehicle locks
Doors and gates
Any locks exposed to cold conditions

WORKS IN ALL
POSITIONSMELTS ICE
INSTANTLYPREVENTS
RE-FREEZING

- **Instant Thawing Power:** Rapidly penetrates and melts ice in frozen vehicle and padlock cylinders.
- **Prevents Re-Freezing:** Leaves a protective, moisture-displacing film that stops the lock from freezing again
- **Lubricates & Protects:** Unlike basic alcohol de-icers, it lubricates the mechanism to reduce wear and **prevent corrosion**
- **A fast-acting de-icer** that melts ice instantly while lubricating the lock mechanism
- **Don't just thaw it, protect it:** Prevents re-freezing and extends lock service life
- **The winter essential for every vehicle:** Restores lock functionality in seconds

REX LOCKFREE 48/65 ML

EAN: 6430064917657

ACETONE-FREE & RESIDUE-ZERO

Odorless Industrial Degreaser

CLEANPRO

500/650 ml

REX CleanPro is a highly effective industrial degreaser and contaminant remover. It quickly and residue-free eliminates wax, oil, grease, resin, bitumen, printing ink, silicone, and other impurities from paint, metal, and other hard surfaces. The product **evaporates rapidly**, is odorless, and works in any position. Free from acetone.

SAFE TO USE

Odorless → no heavy ventilation required
Acetone-free → safer handling
Works in all positions → easy to use

POWERFUL CLEANING

Removes grease, oil, wax, resin, bitumen, and silicone
Leaves no residue → ready for further processing
Fast evaporation → efficient workflow

APPLICATIONS

Machines, engines, gearboxes, clutches
Valves, bearings, chains, brake parts
Tools and pre-paint surface cleaning

REX CLEANPRO 500/650ML

EAN: 6430064917541

PRODUCT NO: REXCHEM491754

- **The Heavy-Duty Cleaner:** Acetone-Free & Residue-Zero
- **Master of Contaminants:** Effortlessly dissolves stubborn substances like bitumen, resin, printing ink, and silicone residues
- **Zero Residue Finish:** Evaporates instantly and completely, leaving a perfectly clean surface ready for painting or bonding
- **Safe & Silent:** Powerful cleaning action without the pungent smell of solvents or the aggressiveness of acetone

WORKS IN ALL POSITIONS

Made in Finland

NO-RINSE FORMULA

Professional Coil Cleaner

COILFOAM

500/650 ml

REX CoilFoam is a fast-penetrating and highly effective cleaning agent for air conditioning coils. It removes dirt and grease from evaporator coils in both window and ceiling units. The foaming formula clings to coils and **requires no rinsing**. Works in any position. Does not damage metals or plastics. For professional use only.

SAFE TO USE

Does not damage metals or plastics → safe for coils
Foam clings to surfaces → non-drip application
Professional-grade → designed for industrial use

POWERFUL CLEANING

Effectively removes dirt and grease
No rinsing required → faster workflow
Works in all positions → easy application

APPLICATIONS

Air conditioning coils
Evaporators
Window and ceiling AC units

WORKS IN ALL
POSITIONSNO RINSING
REQUIRED

- **Safe on aluminum**
- **Restore Airflow Instantly – No Rinsing Required**
- **Spray, Clean, Done:** The no-rinse formula cuts maintenance time in half.
- **Reaches the unreachable:** 360° valve action allows cleaning in tight ceiling spaces
- **Restores efficiency:** Removes insulating grime to restore optimal heat transfer

**SILICONE-FREE AND
ENVIRONMENTALLY FRIENDLY**

The World's
First Bio-Ceramic
Penetrant

RUSTOFF PRO

500/650 ml

REX RustOff Pro is the **world's first industrial-grade, nearly 100% bio-based** penetrating release agent. A renewable solvent and bio-based oil are combined with a ceramic additive that enables dry lubrication and easy part release.

The ceramic component **withstands temperatures up to +900 °C** and forms a thin, layered film (4–10 microns) for exceptional lubrication, wear resistance, and release performance. It works effectively as a penetrating release agent, displaces moisture, and leaves a lubricating ceramic oil film plus a thin corrosion-protection layer. Odorless composition reduces ventilation requirements.

SAFE TO USE

CO₂ propellant → extremely low VOC content
Non-flammable formula → safe for industrial use
Odorless → no heavy ventilation needed

BIO-BASED ADVANTAGE

95% rapidly biodegradable
Significantly lower carbon footprint than fossil alternatives

HIGH PERFORMANCE

Penetrates seized parts
Displaces moisture and protects against corrosion
Temperature resistance up to +900 °C

REX RUSTOFF PRO 500/650ML

**NEXT-GEN
MULTIPURPOSE OIL**

The 100%
Fossil-Free
All-Rounder

MULTIOIL

500/650 ml

REX MultiOil is a **fully bio-based, fossil-free** multi-purpose oil. Its unique formulation is built on renewable raw materials, reducing the carbon footprint by up to 90% compared to fossil alternatives. 95% of the ingredients are rapidly biodegradable, making it an environmentally friendly choice. The product uses non-flammable CO₂ as a propellant and has an extremely low VOC content (<5%), compared to over 85% in conventional fossil-based products. REX MultiOil lubricates, protects against corrosion, displaces moisture, and cleans dirt, grease, and soot. Excellent penetration loosens seized parts. **Silicone-free.**

SAFE TO USE

CO₂ propellant → non-flammable and safe
VOC content <5% → extremely low compared to fossil alternatives (>85%)
Silicone-free → no harmful residues

ECO-FRIENDLY

100% fossil-free → significantly reduced carbon footprint
95% biodegradable → sustainable solution

MULTI-FUNCTIONAL

Lubricates, protects, and prevents corrosion
Cleans dirt, grease, and soot
Excellent penetration → loosens seized parts

**FORMS A WAX-LIKE
PROTECTIVE FILM**

The Ultimate
Synthetic
PTFE Shield

EXTREME LUBE

500/650 ml

REX ExtremeLube is an exceptionally effective general-purpose lubricant enhanced with PTFE. Synthetic base oils ensure excellent cold properties and heat resistance (**-55°C to +250°C**). Thanks to its low surface tension, the product penetrates microscopic spaces, lubricates efficiently, and reduces friction-induced wear on moving parts. The oil film repels moisture due to wax-like solids and forms a thin protective lubrication layer. The combination of pressure-resistant additives and PTFE guarantees lubrication even under the toughest conditions.

SAFE TO USE

Synthetic formulation → outstanding temperature resistance
Moisture-repellent → corrosion protection
PTFE additive → reduces friction and wear

HIGH-PERFORMANCE LUBRICATION

Temperature range -55 °C to +250 °C
Penetrates microscopic areas
Withstands high pressure and stress

APPLICATIONS

Locks, valves, controls
Sliding surfaces, conveyors, rollers, guide rails, tackle systems
Tools and other moving parts

- **Extreme Performance:** Synthetic Oil + PTFE + Wax Protection
- **Wax-Like Moisture Barrier:** Contains specialized solids that form a wax-like film, repelling water and sealing out corrosion far better than standard oils
- **Micro-Gap Penetration:** Ultra-low surface tension allows the lubricant to creep into the tightest microscopic spaces for total coverage
- **Extreme Load Stability:** Reinforced with pressure-resistant additives and PTFE to prevent metal-to-metal contact under heavy stress

ALLROUND PRODUCT

Deep-Action
Foam for Fabrics

**TEXTILE
CLEAN**
400/520 ml

REX TextileClean is a powerful, fresh-scented foam cleaner **for all textile surfaces**. Shake the can before use and spray onto the areas to be cleaned. Allow to act briefly, then brush. Repeat if necessary. Vacuuming after brushing improves the cleaning result.

SAFE TO USE

Fresh scent → pleasant to use
Suitable for all textile surfaces → versatile application
Easy to use → spray, brush, vacuum

POWERFUL CLEANING

Effectively removes dirt and impurities
Foaming formula → deep cleaning
Vacuuming after brushing enhances results

APPLICATIONS

Carpets and upholstered furniture
Car interior textiles
All household textile surfaces

REX TEXTILECLEAN 400/520ML

EAN: 6430064917695

PRODUCT NO: REXCHEM491769

- **Fresh Start:** Foam Cleaner for Carpets & Upholstery
- **Active Foam Technology:** The dense foam clings to fibers and lifts dirt to the surface without soaking the fabric padding
- **Odor Eliminator:** Leaves a fresh, clean scent that revitalizes stale car interiors and household furniture
- **Versatile Deep Clean:**
- Gentle enough for delicate upholstery but powerful enough for muddy floor mats

**FAST-DRYING
CORROSION PROTECTION**

Silver-Grey Anti-Corrosion Coating

ZINCPAINT

400/520 ml

REX ZincPaint is a silver-grey, fast-drying zinc coating that provides excellent corrosion protection. It adheres strongly to iron and metal surfaces and offers **outstanding spot-welding properties**. The treated surface must be dry, clean, and rust-free. Can be overpainted with most paints available on the market.

SAFE TO USE

Strong adhesion to metal surfaces → reliable protection
Overpaintable → versatile application
Fast-drying → efficient workflow

EFFECTIVE PROTECTION

Excellent corrosion resistance
Silver-grey finish → clean appearance
Superior spot-welding properties

APPLICATIONS

Iron and metal surfaces
Corrosion protection
Areas requiring overpaintability

REX ZINCPAINT 400/520ML

EAN: 6430064917688

PRODUCT NO: REXCHEM491768

- **Weldable Silver Zinc:** Protection & Finish in One
- **Matches Galvanized Steel:** The silver-grey finish blends seamlessly with fresh hot-dip galvanization, unlike standard dark zinc sprays
- **Spot-Weld Compatible:** Excellent conductivity allows for spot-welding through the coating without compromising the weld quality
- **Primer & Finish:** Acts as a standalone anti-corrosion barrier or a high-adhesion primer ready for topcoating

WATER-RESISTANT

Zero Sling-off Drive Chain & Cable Guard

CHAINLUBE

400/520 ml

REX ChainLube is an additive-enhanced, mineral-based oil that lubricates chains and cables effectively thanks to its excellent penetration capability, significantly extending their service life. It **stays firmly in place** and penetrates deep into cable cores to lubricate the most stressed internal parts. Suitable for variable conditions (**-30 °C to +110 °C**). **Water-resistant.**

SAFE TO USE

Water-resistant → protects against moisture
Stays in place → no sling-off
Wide temperature range → -30 °C to +110 °C

EFFECTIVE LUBRICATION

Penetrates cable cores
Lubricates internal parts → reduces stress
Extends service life significantly

APPLICATIONS

Drive chains and cables
Wire ropes
Areas requiring durable lubrication

High-Performance
Lubricant with
PTFE

PTFELUBE

400/520 ml

REX PTFE Lube is a versatile synthetic general-purpose lubricant designed for a **wide operating temperature range: -54 °C to +247 °C**. It penetrates microscopic spaces effectively, provides strong lubrication, and withstands high pressure. Reduces friction-induced wear on moving parts. The combination of oil and PTFE forms a **protective lubrication film that repels moisture exceptionally well**.

SAFE TO USE

Synthetic formulation → long-lasting protection
Moisture-repellent → corrosion resistance
Wide temperature range → -54 °C to +247 °C

EFFECTIVE LUBRICATION

Penetrates microscopic areas
Reduces friction and wear
Withstands high pressure

APPLICATIONS

Valves and controls
Sliding surfaces
Office and copy machines
Conveyors, roller tracks
Locks, guide rails, tools

- **The Friction Fighter:** Synthetic Oil + PTFE Protection
- **Micro-Penetrating Power:** Gets into the tightest clearances to deliver lubrication exactly where it's needed.
- **Extreme Temp Versatility:** Engineered to perform flawlessly from deep freeze (-54 °C) to high heat (+247 °C).
- **Dual-Action Formula:** Combines the penetrating speed of synthetic oil with the long-lasting, solid lubrication of PTFE

**SAFE FOR ELECTRICAL
COMPONENTS**

Heavy-Duty Rust Release with MoS₂ Power

RUSTOFF

400/520 ml

REX RustOff is a rust remover, lubricant, and penetrating oil in one product. It effectively loosens seized and rusted parts and prevents them from sticking again. The **MoS₂ additive** provides an extended application range and extremely low friction properties. Excellent lubrication even under high pressure and across a wide temperature range (**-30 °C to +450 °C**). Protects against rust and stops ongoing corrosion. Extremely low electrical conductivity. **Silicone-free** and stable in air and oxygen environments.

SAFE TO USE

Silicone-free → no harmful residues
Stable in air and oxygen → safe storage
Extremely low electrical conductivity → safe for electrical components

HIGH PERFORMANCE

Frees rusted and seized parts
Lubricates under high pressure and temperature
Temperature range -30 °C to +450 °C

APPLICATIONS

Seized components
Rusted joints
Areas requiring lubrication and corrosion protection

SILICONE & SOLVENT-FREE

The Ultimate
Fingerprint
Defense for
Stainless Steel

STEELCLEAN

400/520 ml

REX SteelClean is an effective and easy-to-use product for cleaning and maintaining matte and polished stainless steel surfaces. It removes dust, fingerprints, oil, and light lime or flash rust residues from stainless steel. Also suitable for aluminum, chrome, ceramic, wood, soft metals (such as copper), glass, and plastic surfaces. The treated surface dries quickly and leaves a durable, glossy protective film that effectively prevents re-soiling and provides antistatic properties to reduce dust accumulation. Printed or etched markings remain intact.

Silicone-free, solvent-free, and neutral in scent.
Approved for use in food industry and kitchens
(NSF approval for active ingredient).

SAFE TO USE

Silicone- and solvent-free → safe for surfaces
Neutral scent → pleasant to use
NSF-approved → suitable for food industry applications

EFFECTIVE CLEANING & PROTECTION

Removes dust, oil, fingerprints, and light rust residues
Leaves a glossy protective film → prevents re-soiling
Antistatic effect → reduces dust accumulation

APPLICATIONS

Stainless steel surfaces (matte and polished)
Aluminum, chrome, soft metals
Glass, plastic, and ceramic surfaces

WORKS IN ALL
POSITIONS

- **Clean, Shine, and Protect –** Silicone-Free Care for Steel Surfaces
- **Fingerprint Resistant:** Creates a durable, antistatic shield that repels dust and prevents fingerprint smudges
- **Silicone- & Solvent-Free:** 100% safe for paint shops and food prep areas
- **Restorative Cleaning:** Removes grease, lime spots, and even flash rust while preserving etched markings

**SUITABLE FOR
MULTIPLE SURFACES**

The Zero-Drip Cleaner for Crystal Clear Results

GLASSFOAM

400/520 ml

REX GlassFoam is a powerful, **high-foaming, zero-drip cleaner** for glass, mirrors, and hard surfaces. It quickly and effectively removes grease, dirt, soot, nicotine, dust, insect residues, and other contaminants. Also ideal for cleaning other hard surfaces such as computer equipment, phones, and calculators. Light lemon fragrance for a pleasant user experience.

SAFE TO USE

Non-drip formula → no mess
Light lemon scent → pleasant to use
Suitable for multiple surfaces → glass, metal, plastic

POWERFUL CLEANING

Removes grease, soot, nicotine, and insect residues
High-foaming action → strong cleaning performance
Leaves surfaces clear and streak-free

APPLICATIONS

Glass and mirrors
Hard furniture surfaces
Computer equipment, phones, calculators

- **Vertical Hold Technology:** High-Foaming Glass Cleaner
- **Zero-Drip Application:** High-density foam clings instantly to vertical surfaces like windows and mirrors, preventing messy runoff.
- **Cuts Through Grime:** Powerful formula dissolves tough contaminants like nicotine film, greasy soot, and insect residue
- **Electronics Safe:** Ideally suited for cleaning office equipment and screens, as the foam stays where sprayed and won't leak into sensitive components
